

CONTENT DISCLAIMER

No part of this CD-ROM may be reproduced, stored, retrieved, or transmitted in any form or by any means without the prior written permission of Abbott Laboratories.

Updates to the information on this CD-ROM may be provided in a paper or electronic format (ISAs, TSBs, Revisions to printed documents, etc.). Always refer to the latest printed or published documents for the most current and up to date information.

The information contained on this CD-ROM was developed to be used by trained Abbott Laboratories Field Service Personnel, or by other persons experienced or knowledgeable with the operation and service of the X-Systems[®] and AxSYM[®] products. The information is to be used under the direct supervision and co-operation with Abbott Laboratories technical sales and service representatives.

In no event shall Abbott Laboratories or its affiliates be liable for any damages or losses incurred in connection with or arising from the use of the information on this CD-ROM by persons not fully trained by Abbott Laboratories as technical sales and service representatives. This limitation shall not apply to those persons experienced or knowledgeable with the operation and service of the specified Systems, who use this information under the direct supervision of Abbott Laboratories technical sales and service representatives.

WHAT'S ON THIS CD-ROM?

You should have already used the Install.exe file to install the X-Systems® Icon on your PC.

You have seen the Content Disclaimer page. It is a requirement of Abbott Corporate Legal.

Other items on the CD are:

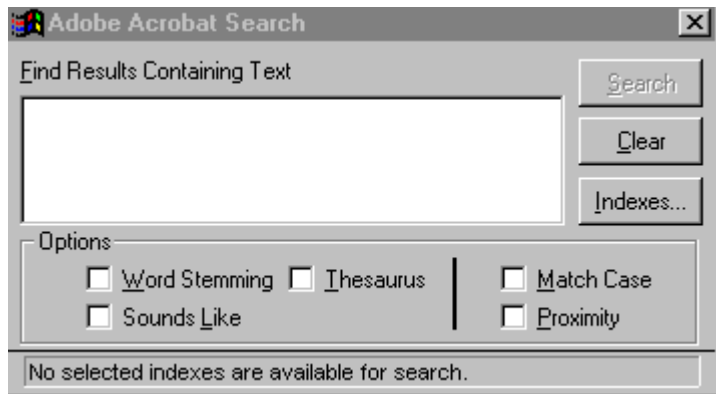

1. CD-ROM Table of Contents (TOC) showing each manual on the CD, plus TSBs, and ISAs. Each is hyperlinked to the proper location.
2. X-Systems® Service, Operator, and Host Interface RS 232 Manuals. See the CD-ROM TOC for a complete listing.
3. TSB and ISA Indexes and all TSBs and ISAs in the Lotus Notes TSB/ISA Databases at processing time are included, and are hyperlinked.
4. Adobe® Acrobat® Reader 3.0 with Search install files for both Windows® 3.1 and Win 95.

Each of the manuals contain:

1. An opening page with:
 - a. Abbreviated TOC hyperlinked to each entry on the TOC.
 - b. CD TOC button to take you back to the CD-ROM TOC.
 - c. Exit button to leave the CD-ROM.
2. Icons (Buttons) on each page:
 - a. SEARCH button to allow you to perform word searches on the contents of the entire CD-ROM.
 - b. TOC button to take you to the Chapter TOC, then to the Book TOC.
 - c. GO BACK button to take you back to the previous screen.
3. All internal references have been turned to **RED** text and hyperlinked.
4. All Table of Contents (which are in black text) are hyperlinked.

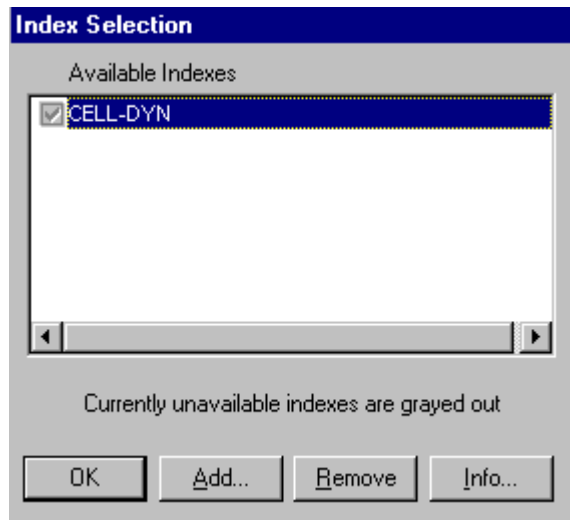

HOW TO USE SEARCH

1. Click on any **SEARCH** Icon to get this window.

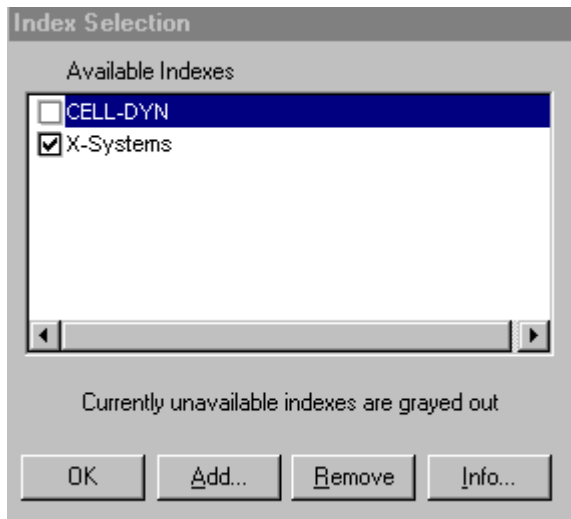

2. Click on the **Indexes...** button to get this window.

3. If the **X-Systems®** Index is not listed in **Available Indexes**:

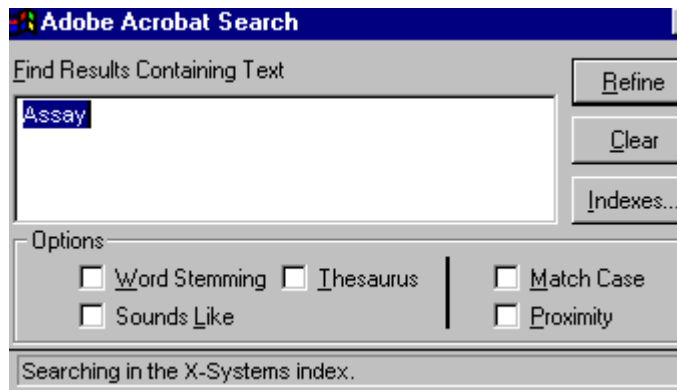

- a. Click on **Add...**
- b. Select the CD drive letter
- c. Select the file **XS-Index.pdx**
- d. Click on **Open**.

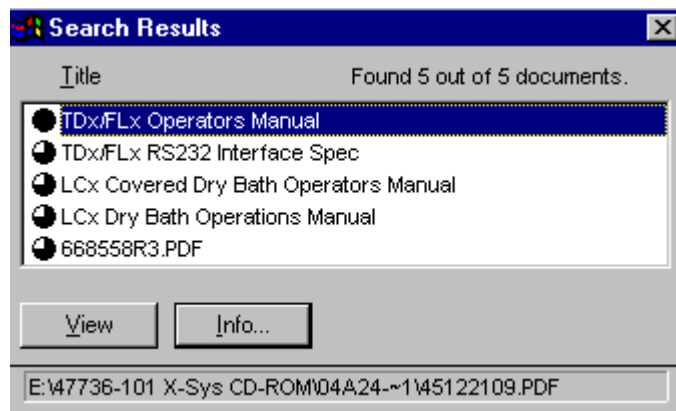

4. Make sure only the **X-Systems®** index is checked and all other indexes are NOT checked or have been removed.

5. Click **OK** to close the **Index Selection** window.
6. In the **Adobe® Acrobat® Search** window, in the **Find Results Containing Text** box, type search information, such as assay, and click on **Search** to get this **Search Results** window.

7. This window lists all the documents on the

CD-ROM where the word **assay** was found.

8. Select the document you want to view, and click on **View**.
9. The selected document will open and the first location of the searched text is displayed and the searched text (**assay**) will be highlighted.

10. Ctrl + U will take you to the next location where **assay** was found in that document.

11. Ctrl + Shift + U will skip to the next document and display the first location where **assay** was found.

--- END ---
