

## VP-44: RS-232 COM PORT TEST (pg 1 of 1)

Time: 2-5 minutes

Purpose: To verify that Communication Port operates properly

1. Install Loopback Tool on COM 1 port (closest to Power Cord) (Figure VP44).

*NOTE: If Loopback Tool is not available, short pins 2 & 3, 4 & 5, 6 & 20.*

2. Perform UART Test:

- UTILITY
- OTHER
- OTHER
- SERVICE
- OTHER
- UART

3. UART DIAGNOSTICS test runs.
4. Remove Loopback Connector or shorts.
5. Repeat procedure for COM 2 port.
6. Return to READY menu:
  - EXIT
  - EXIT
  - EXIT
