Chapter 4

Removal and Replacement Procedures

CHAPTER TABLE OF CONTENTS

RR Procedures (numeric order list) 4- 2
RR Procedures (alphabetical order list) 4- 4
Chapter Overview 4- 7
Removal & Replacement procedures 4- 9

WARNING!

Procedures in this chapter require following biohazard, electrical hazard, and electrostatic discharge precautions.

WARNING!

Tools must be decontaminated before and after servicing the analyzer. Tools must be decontaminated before they are returned to the tool kit.

CAUTION!

You must perform VP-60: Decontamination before you begin and after you complete any procedure that requires removing the analyzer cover.

CHAPTER OVERVIEW

This chapter provides:

- step-by-step procedures for removing and replacing LCx® Analyzer parts
- illustrations to accompany the procedures

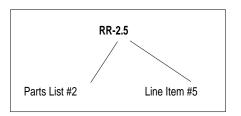

Links

- RR procedure and its related illustration
- RR and related Parts List
- RR and the alphabetical and numerical lists of RR procedures
- Verification Procedures (VPs) in the RR and the related VPs
- Board and Card Cage illustrations

Numbering Scheme

The Removal/Replacement procedures in this chapter are indexed by number to the related Parts List in Chapter 3.

Example: RR-2.5 is the Removal/ Replacement procedure for Item 5 on Parts List PL-2.
