RR-8.0: TILT BACK CARD CAGE (pg 1 of 2)

Removal

1. Remove Enclosure (RR-1.3).
2. Tilt back Card Cage:
   a. Loosen long captive post screws at front corners of Card Cage.
   b. Disconnect 4 cables.
   c. Disconnect Bar Code Cable P8 at Analog Board. (P8 not visible in illustration.)
   d. Remove Printer cable from cable clamp.
   e. Tilt Card Cage back. (Refer to PL-8 illustration in Chapter 3 to see Card Cage in tilted-back position.)

## Replacement

CAUTION !
Ensure that no cables are under the captive posts before securing cables.

1. Reposition and secure Card Cage:
   a. Tilt Card Cage forward.
   b. Secure Printer Cable in cable clamp.
   c. Connect Bar Code Cable P8 at Analog Board.
   d. Connect 4 cables.
   e. Tighten the long captive post screws to secure the Card Cage to the base.
2. Install Enclosure.
